

The playground

The playground is a big area outside our school.
On the playground are lots of plants and lots of rocks.
It is very pretty. You can find many toys and cool places.

There the children can play and talk to their friends.
On the playground I like to play, eat and run.
I can play there for 20 minutes at the first break every school day.

I think the playground is the best and my favourite place at school!

The playground

The playground at our school is very big! There are a lot of walkways, bushes and trees and three climbing frames. You can also find a tube and at the back of the playground three teepees.

A football field is there too. Here play lots of children. In the winter we cannot play there if there is ice on ground. But most times of the year we have lots of fun here at our playground!

Playground

The playground is the biggest place of the school.
The playground is our favourite place at school.
The children play on the playground and love it.
The playground has got plants and rocks it is very pretty.

We have two times a day to play on the playground.
